THE DISPLAY

All parts and components in one ready-to-assemble bundle*

- LG direct view LED panels
- 4K LG controller
- 2% Spare modules
- Spare boards and parts
- Service tool

LG webOS™

- Intuitive on-screen user interface
- Remote control for easy setup
- Ambient-light sensor and automatic brightness adjustment

Screen sharing

- Miracast
- WiDi

Onboard CMS

- 3.6GB flash storage
- Store, schedule, playback

* Mounting brackets sold separately

THE SERVICES

In-Field Training

- Hosted by an LG Field Engineer
- Educational webinar prior to installation
- Be ready for installation with complete support from LG

3 years LG TotalCare Health Checks

- 2x per year on-site display health check by LG
- Priority on any needed RMA services

3 years LG ConnectedCare Remote Monitoring

- ConnectedCare Solution Software subscription
- LG professional remote monitoring service

5 years LG ExtendedCare warranty

THE PACKAGING

LG Branded Flight Case

- Every LG direct view LED display ships in a new, branded, wheeled flight case
- Premium-grade protection for each stunning display
- No more searching to make sure you received every box
- No forklifts or pallet jacks required, simply roll the cases in to your space

THE LG DIFFERENCE

A sophisticated controller and LG webOS deliver advanced multi-view options and simplified system control.

- **webOS** with built-in Quad Core SoC can execute several tasks while providing smooth content playback without the need for an external media player
- **Built-in Media Player** saves system complexity and budget not having to purchase an external device to play media
- **On-board Flash Storage** up to 3.6GB for content and applications for select models
- **Integrated Multi-Screen** capability allows up to four inputs to be on the display at the same time overlaid through PIP
- **Remote Control** with an intuitive user interface puts system and image control in the palm of your hand
- **Built-in AV-Over-IP Decoder** that can simultaneously display up to four 4K RTSP video streams
- **Built-in Scaling** capability can transform resolution either up or down for any area of the display
